MILITARY.

In 1811 a military organization was held the post of commander until he left town, about the time the "cold seasons" commenced, when the company run down for want of material.

When the military system of Verwas remodeled and attempted to be revived in 1842 and '43, a company was formed in Granby and Victory, and Jonathan Matthews was 1st Lieutenant.

In the war of 1812 James Elliott went as aid for Gen. Seth Cushman, and others took part in guarding the road from Connecticut river through Granby to Canada against smugglers.

During the war of 1861 Benj. Mc-Daniels, the first in town to respond to the call for soldiers to put down rebellion, enlisted Sept. 9, 1861, in Co. G. 4th Vt.; died in Virginia, near camp Griffin, Feb. 7, 1862, of diph-

Alonzo L. Ford enlisted Dec. 14, 1861, Co. K. 8th Vt.; taken prisoner Orleans, of chronic diarrhea.

George O.Ford enlisted December, held about three months; served under Gens. Butler and Banks in the department of the Gulf with distinetion, was several times promoted,

Ethan P. Shores enlisted Dec. 9, 1861, in Co. K, 8th Vt.; was wounded Sept 4, 1862, at Bootee Station, La., when the detachment were returning from the sacking of the Taylor estate, by a buckshot in the head. another in the foot, and a ball through the left leg near the knee; was taken prisoner, escaped, during the mellee, to the woods; eluded the vigilance of his pursuers, procured some food once, sucked water from old logs, traveled more than 30 miles, and the third day got into Sabbath, the deacon taking the lead of her aunt. dressed for the first time. Refused uniform good health, no matter how weeks are with credit in the assaults and siege The Congregational church was which meets at Burlington next week of Port Hudson, and was appointed organized June 8, 1825, by Rev. Monday, Tuesday and Wednesday.

NEWPORT NEWS.

Retires From Newspaper Work.

Mrs. Lula Lepine closed her labors with the EXPRESS AND STANDARD last Saturday night. It is probable she has been connected with the paper longer than anyone else ever in its employ. Coming here from Randolph, at which ne she was employed on the Randolph Herald, she began work for Theophoilus Grout about 25 years ago. About five years later, when the present proprietor purchased the paper, which then was a semi-weekly, she was the chief and swiftest compositor on the job. Later she took charge of the newspaper make-up and advertising, and has retained that position until a few weeks Wilson Buck is very low at this writ- ago when the position was taken by her son, Lee. She has been a most efficient hand and will long be remembered by the newspaper force. Mrs. Lepine ogether with her husband, who is an employee of the B. & M. railroad, own a beautiful home in West Derby and though it will be a great change for one who has spent nearly her whole life at the type case, she will probably in the end find great enjoyment in the change.

Resurrecting a Dead Battery.

A clock having an electric contact stopped with the contact closed, sc that when it was started up a couple of hours later, the battery polarized that it could not operate the Highwater, P. Q., were recent guests at and team. The buildings are in magnet to which it was connected. first-class repair; excellent spring To wait till the battery could recu-Mr. and Mrs. Walter Hildreth are water at both house and barn. The perate would mean leaving the mechanism out of use for some hours. The barn with cellar, horse bern and battery consisted of three Leclanche cells. Five dry cells were brought into use. Connected in series, the terfor 150 hens, a good sized farm minal wires were touched to the terminals of the exhausted battery, zinc to zine and carbon to carbon. After 30 seconds of this reverse current the

battery was fully restored and ready

The Pigmy of Books. United States Marshal Chesterfield C. Middlebrooks, auministrator of the estate of Edward Clarke, found in the office of the latter a dictionary measuring one inch, three fourths of an inch wide, and one-fourth of an inch thick, and it contains 384 pages. The book is inclosed in a metal case, on the cover of which is a magnifying glass with which to read the type, which is much too small to be discerned by the naked eye. The book was printed in Glasgow, and was undoubtedly picked up by Mr. Clarke, who was a collector of antiques, during one of his trips abroad.-Hartford

(Conn.) Courant.

Dignity of Manual Labor. The trouble with most young men is that they do not understand the dignity of manual labor. They do not realize that honors and fortune may be more readily gained outside of the so-called learned professions than in them; and that it is just as honorable to swing a hammer or to hold a plow as it is to make a speech in court or to amputate a limb. The lesson young men should be taught as early as possible is that it is not so much what a man does for a living as how he does it, and that manual labor is as honorable as any other.-Lubbock Av-

Mexican Mountains.

The Mexican mountains are mainly of underlying granite formation. The Jurassic, Cretaceous and Tertiary rices rocks are much in evidence throughout the country, while the highest ranges, as we have seen, are of volcanic origin. The singular plains of Yucatan are largely of calcareous formation, probably a Tertiary limestone. One of the most plentiful rocks over vast areas of Mexico, and that which forms the striking variation of scenery, is the mountain limestone, the excessively hard stratified crystalline rock of the Lower Cretaceous period.
